

# Galaxy Enterprise Edition

## More business, less work

The best of Samsung, packaged for business. Galaxy Enterprise Edition is a complete suite of mobile technology and services designed to give you more — more choice, more control and more protection.

It's now easier to configure, update, deploy and run mobile technology across your organisation at scale — helping to ensure your people are always securely connected with reliable technology that keeps your teams working

## Knox Configure

Make configuring and deploying your fleet of mobile devices quicker and simpler. With Knox Configure, you get more control over settings, restrictions, apps and other mobile content — allowing you to setup and switch specific user group configurations without even opening the box. All this means your workforce can be up and running as soon as they turn on their devices, wherever they are.

## E-FOTA on MDM

Samsung Enterprise Firmware Over-The-Air on MDM (E-FOTA on MDM) is a tool that enables you to remotely update the firmware across your entire Samsung fleet via your MDM — ensuring everyone is on the same version. It lets you test version updates and new apps to ensure stability, reliability and in-house capabilities before rolling them out. You can even set updates to happen automatically, or schedule them for whenever best suits your business.

## 4 Year Security and Maintenance Release

Keep your business protected from mobile security threats. With Galaxy Enterprise Edition, you get 4 years of firmware updates either monthly or quarterly<sup>3</sup>, so you can be sure all of your mobile devices are up to date with the latest Android and Samsung security and maintenance patches. This helps protect your fleet of Samsung devices against malware, phishing or any software malfunction that might pose a threat to your business.

1. Doorstep exchange with Samsung gold stock.

2. Devices will remain on sale for a defined period of time after first global market release. The defined period will differ according to each specific device.

Subject to change without notice.

3. 4 years from first global market launch. S Series, Note Series, A50 and XCover4s updates are available monthly for the first three years, then quarterly

for the final year. Tab Active Pro and A40 updates are available quarterly for the full four-year term.

## 3 Year Enhanced Support

Keep your business running with extra support for your devices. Galaxy Enterprise Edition gives you 3 years of enhanced service support, ensuring your mobile technology continues to perform. Our dedicated UK-based Business Services Centre can provide technical support and advice when required. And should any of your devices need replacing, we offer a next business-day replacement service.<sup>1</sup>

## Extended Product Lifecycle

Ensure consistency across your fleet of Samsung devices. All Galaxy Enterprise Edition phones come with an extended product lifecycle, ensuring they're available longer than standard devices.<sup>2</sup> This brings greater continuity to your mobile fleet.
