Galaxy S21 5G | S21+ 5G | S21 Ultra 5G

See the potential with the ultimate tool for business

In a rapidly changing business environment, creativity and collaboration are pivotal to remaining competitive. Galaxy S21 5G is the new power phone that's packed with features to give you the flexibility to survive and grow, undisrupted. A next-level 5G device that's a step above the rest. With hyper-fast connectivity¹, it's designed to be your anywhere office—delivering an entire suite of mobile technology, business applications, support and services to ensure your employees can be more innovative than ever.

And through Samsung's partnership with Microsoft and Cisco², the Galaxy S21 5G series works smoothly with collaboration platforms like Teams and WebEx, giving you a seamless experience in or out of the office. Combining all that with the ultra-powerful camera makes this the ultimate tool for expression.

Work from your phone whenever, wherever with Enterprise Edition³

A disrupted business environment has seen teams having to adapt quickly to remain creative and productive. Samsung Enterprise Edition gives you the tools to meet this challenge; a complete package of mobile technology and services designed to give you more. More choice, more control and more protection.

Setup is a breeze. Getting all your devices logged on to your mobility platform is simple with Knox Mobile Enrollment. Our QuickStart service will also help you to get everything configured just the way you want it, so there's no need to worry if you've never done it before. Plus, you can fully configure all your devices while they're still in the box, so when your employees get them, they're all ready to go.

With more and more people working remotely, support and security are crucial. With Enterprise Edition you get 3 years enhanced support and 4 years of security updates. Next day doorstep replacement, wherever your employees and devices are, means you don't need to fear unforeseen accidents⁴. And Knox security helps you be sure that your information is safe, whether it's in the office or anywhere else.
