Poly Studio P Series

Poly Studio P Series

Make the most of video calls wherever you're working. The Poly Studio P Series personal video devices ensure you always look and sound your best. High-performance cameras compensate for lighting imbalances, while Poly's premium audio is fine-tuned to help you focus and eliminate distractions. IT gains robust cloud management and troubleshooting of every device from anywhere.

Benefits of the Poly Studio P Series

- World Class Audio and Video
- Simple to set up and use
- Robust cloud management

Poly Studio P5

The Poly Studio P5 is a professional webcam with exceptional camera optics, a built-in directional microphone and an integrated privacy shutter.

Poly Studio P15

The Studio P15 personal video bar has a camera, speaker and microphones all in one sleek bar.

Poly Studio P21

The studio P21 is a personal meeting display with a camera, speakers and microphone all in one.

Poly Studio P5 Kits

Studio P5 kits are complete remote working solutions for all user personas and contain everything users need in one box: a webcam and headset or speakerphone.
