1.0 Introduction

Thank you for your recent Order. SCC looks forward to providing this service to you and delivering an excellent customer experience. SCC is committed to continually improving its Services and looks forward to receiving any feedback on the performance or quality of your interaction with SCC.

This document outlines key details about your service including product detail, installation details through to support and service credits. This document is updated regularly so please ensure you visit <http://www.scc.com/telecoms-standard-terms-and-conditions/> for the latest version.

This document will form part of your Contract with SCC (following acceptance of your Order by SCC) for the provision of the SCC Service, as further detailed in the Master Services Agreement. This document uses a number of words and expressions whose meaning are defined Section 11 of this document. Further definitions used in this document are found in the Clause 19 of the Master Services Agreement.

2.0 General Details

This Service Guide covers Mobile voice and data services.

3.0 Product Description

3.1 Mobile

Delivery of SIM only Services for Voice and Data applications to be used within mobile handsets, tablets and routers depending on the application. Voice is available on a per minute basis although most contracts have high levels of bundled minutes minimising cost overrun. Service is delivered through EE, Vodafone, O2 and Three networks in the UK with roaming available as an additional cost option for the rest of the world (not available on Mobile Connect).

Although SCC will use its reasonable endeavours to provide the Customer with Mobile Services at all times, it is unable to guarantee a continuous fault free service and the provision, quality and availability of Mobile Services is subject to:

- the geographical extent of the base stations that make up the Network coverage and
- SCC will have no obligation to provide any Mobile Services outside the range of the Network);
- local geography and topography;
- weather and/or atmospheric conditions;
- degradation, congestion or maintenance requirements of the Network, including but not limited to:
 - re-positioning and/or decommissioning of the base stations;
 - other physical or electromagnetic obstructions or interference;
 - faults in other telecommunication networks to which the Network is connected;
 - the compatibility of the Hardware used by the Customer; and

- the number of users trying to access the Mobile Services.
- The Mobile Services may, from time to time and without notice be suspended or limited because of maintenance, emergency or upon instruction by any government or appropriate authority.

The Customer acknowledges that, as Network design is an on-going process, the range of base stations making up the Network may change from time to time at the Network Operator's discretion and that at any time the Network may comprise of different technologies. The Mobile Services are made available provided the Customer is in the range of the base stations forming part of the Network. Any coverage maps provided to the Customer are the Network Operator's estimate of outdoor coverage and do not guarantee coverage which may vary depending on location.

SCC will aim to enable the Customer to access the networks of other operator's in different countries ("Roaming") however Roaming will depend upon the arrangements between the foreign operators and the Network. The availability, quality and coverage when Roaming cannot be guaranteed by SCC. Roaming will be enabled by default and the Customer will need to request if roaming is required to be disabled. Roaming is not supported on SCC's Mobile Connect solution.

Use of the Mobile Services or any content accessed through it in a country other than the UK may be subject to different laws and regulations. The Customer is responsible for ensuring compliance with such laws or regulations and SCC is not liable for any failure of the Customer to do so.

The Customer shall be responsible for implementing its own data archiving and data backup process. The Customer acknowledges that it may be required to restore data from its back up to relevant systems to enable the Mobile Service to continue to be provided.

Unless otherwise agreed in writing, title and property in any SIM shall remain vested in SCC and the Customer is hereby granted a licence to use any SIM only for accessing the Mobile Services during the term of this Agreement.

The SIMs may be subject to additional terms (such as user manuals and in box documentation) which the Customer accepts by retaining and using such SIM. If the Customer does not consent to such additional terms it must return the SIMs (at its cost) within 7 days of delivery.

3.2 Mobile Managed Services

The terms set out shall apply to any Managed Services provided by SCC to the Customer. The Customer shall enter into a separate Airtime contract with the Network Operator of its choice ('Network Operator Contract') for the same duration as this Agreement and the Customer warrants that it shall comply with the terms of the Network Operator Contract.

The charges payable under the Network Operator Contract shall be invoiced direct to the Customer by the Network Operator and the Customer shall pay such charges direct to Network Operator in accordance with the Network Operator Contract.

3.3 Repair Services

SCC offer a repair service for handsets. Before the device is repaired there will be an inspection by the engineer and if any additional faults are found in addition to the initial inspections quotation, an additional quote will be provided prior to the repair being carried out. All repairs carry a 30-day warranty on the original fault providing there is no further damage. Battery replacements come with a 6-month warranty. For Mobile Connect services SCC will use reasonable endeavours to replace the router the next business day where the hardware is confirmed faulty 2pm.

SCC cannot be held responsible for any other fault that occurs when a unit has been sent in for repair or if the equipment failure is due to software or other tampering or contamination by a foreign matter. The Customer is responsible for the phone or device until it is received by SCC. SCC will not be responsible for any loss of income or inconvenience resulting in the loss of use of equipment.

3.4 4G Mobile Connect

Mobile Connect is provided on a shared data basis. Customers may change their data allowance based on data increments set out on the Customer order form and subject to minimum contract term. Hardware is delivered to customer site pre-configured with pre-installed SIM's and is 'Out of the Box' ready for service. Mobile Connect offers an onsite engineer install upgrade option, where an engineer will attend site and install the service ready for user acceptance testing.

3.5 IOT SIM Cards and IOT Services

Acceptance of any IOT order is subject to availability. SIM cards are delivered to the address specified on the completed order form. The Customer will be deemed to have accepted the IOT SIM Cards when the IOT SIM Cards have been provisioned on the IOT Platform and are available to the Customer.

Risk in the IOT SIM Cards provided to the Customer in connection with this Agreement will pass to the Customer on delivery of the IOT SIM Cards and title in the IOT SIM Cards will pass to the Customer upon payment of all Charges due in connection with the IOT SIM Cards. If no Charges are specifically payable for the IOT SIM Cards provided to the Customer in connection with this Agreement then title in the IOT SIM Cards will pass on delivery.

Any specific number range associated with an IOT SIM Card is and remains SCC's property and SCC reserves the right to issue written instructions to the Customer in connection with the Customer's use of any such proprietary number range (including issuing instructions directing the Customer to stop using certain numbers) and the Customer agrees to comply with such instructions.

SCC confirms that each IOT SIM Card will conform in all material respects to the manufacturer's specification for a period of 12 months from the date of delivery (the "Warranty Period") unless special conditions associated with certain IOT SIM Cards apply. If, within the Warranty Period, the Customer notifies SCC of any defect or fault in an IOT SIM Card arising under normal use in consequence of which the IOT SIM Card fails to

conform in any material respect with the manufacturer's specification, SCC shall, at SCC's exclusive option, either (1) procure the repair of the faulty IOT SIM Card or (2) replace the faulty IOT SIM Card with a similar or equivalent SIM card.

These warranty obligations shall not apply in the event that an IOT SIM Card has been amended or damaged or has been used for purposes which conflict with the instructions or advice of SCC or the IOT SIM Card manufacturer.

The Customer acknowledges and agrees that SCC is acting as a telecommunications and internet service provider and, accordingly, that SCC has no knowledge of or liability in connection with the content of any communications sent to or from the Customer's IOT SIM Cards.

As soon as is reasonably practicable following completion of the Customer's services application, SCC will connect the IOT SIM Cards to the IOT Platform and will make the IOT Platform Services available to the Customer for use pursuant to the terms and conditions of the Agreement.

The IOT Platform Services will be made available to the Customer via the Customer Portal in accordance with the standard documentation and user guides published and made available on the IOT Platform by Cisco Jasper (as amended and updated from time to time).

SCC makes no additional guarantees or warranties whatsoever in relation to the IOT SIM Cards or the IOT Services and their operation or use. Any conditions or warranties (whether express or implied by statute, common law or arising from a course of conduct or a previous course of dealing or trade custom or usage) as to merchantability, quality or fitness for a particular purpose (even if that purpose is made known expressly or by implication to SCC) are, to the fullest extent permitted by any applicable law, excluded in full.

The Customer agrees, in respect of its use of the IOT SIM Cards and IOT Services, to be responsible for and to comply with any applicable export or re-export laws, regulations, prohibitions or embargoes of any country, including obtaining written authority from any relevant licensing authority where necessary.

4.0 Orders

SCC may accept each Order in its discretion and may require Customer to provide satisfactory financial and credit information before acceptance.

An Order is treated (by this Agreement) as accepted by SCC when SCC or its Agent notifies the Customer in writing (including by email) that (a) a date has been set for Activation of the service (b) a date for the delivery of the SIM cards (c) a date for the delivery of Hardware. The date of such notification shall be referred to in this Agreement as the 'Order Committed Date'.

The Customer shall not use the Voice Service to:

- Make nuisance calls; to send, or knowingly receive material that is offensive, indecent obscene or otherwise unlawful, fraudulent, bad faith or in a way that does not comply with legislation.
- The Customer must also not perform any activities in a manner that adversely affects other users.
- The Customer must take all reasonable steps to monitor the profile of calls made and received using the Voice Services for potential fraudulent or bad faith use and take action to prevent such use

To accommodate the Customer's in-life organic growth requirements SCC will accept requests for new mobile tariff connections and mobile hardware ("Organic Growth Services") by email from contacts of the Customer authorised to place orders. For the purposes of the SCC MSA the email shall constitute an Order Form and SCC's email acknowledgement shall constitute acceptance of the Order. The Organic Growth Services shall be provided on the same commercial terms as the related original order and on a co-term basis to the original Order, unless stated otherwise in the email correspondence between SCC and the Customer.

Existing Customer purchase orders will be used for organic growth requirements, however where additional requirements are considered to be more than organic growth, or are for a new Service not currently taken, SCC at its discretion, may require the Customer to provide additional purchase orders before accepting the Order for the additional Services for the Service.

4.1 Charges

The Charges provided by SCC to the Customer are confidential and shall not be disclosed to any third party without SCC's written consent. Notwithstanding the foregoing, the Customer may disclose the Charges to its affiliates and contractors and as may be required by law or regulation. All Charges and any other sums due under this Agreement are exclusive of value added, sales and similar taxes of any kind, for which the Customer shall be additionally liable.

The Mobile charges shall be invoiced:

- in advance for subscription, line rental and other recurring charges (inclusive of any inclusive usage charges); and
- in arrears for usage (excluding inclusive usage charges), connection and other non-recurring charges.

Hardware Charges shall be invoiced when supplied hardware is Ordered by the Customer from SCC. Repair Charges shall be invoiced when the work has been undertaken.

4.1.1 RPI, CPI or Other Charges

When RPI or CPI charges are issued by the Network Operator, SCC reserve the right to adjust the Customer's monthly charges by the same percentage. The Network Operator may also (not normally more than once in a calendar year) issue an increase to the Charges. Any increase in Charges issued by the Network Operator can occur whilst the

Service is still within its Initial Term. These changes will be communicated to Customers prior to these adjustments being reflected in future invoices.

4.1.2 Out of Bundle Call Charges

Out of Bundle Call Charges are processed at the carrier defined rates at the applicable point in time.

4.1.3 Mobile Connect – Overage Rates

Unless otherwise stated in the quotation, overage rates are £15 per GB. Overage is rounded up to the nearest GB in excess of allocated shared network data.

4.2 Fraud

SCC, its Agent and/or the Network Operator may reserve the right to monitor the Customer's or End Users usage of the Mobile Services for the purpose of controlling SCC's credit risk and the Customer's exposure to fraudulent usage and reserve the right to withhold Services if they suspect fraud.

If the fraud has arisen due to activities on customer Premise Equipment or Handset, then it is SCC's policy to invoice the Customer for that traffic. SCC has complied with its contractual responsibility of delivering calls and data sent to its network by the Customer Equipment, and incurred cost for that delivery. Therefore it is the Customer's responsibility to pay SCC for the services used.

4.3 Bill Capping (not applicable for Mobile Connect services)

The Customer may request Bill Capping to be applied by SCC at any time, to take effect 1 working day following acknowledgement of the request. The following terms shall apply.

4.3.1 Mobile Bill Capping

Is a bar enforced at a per invoice level at an agreed value specified by the Customer. This is NOT a per mobile capping service and SCC does not offer this.

4.3.2 Mobile Bill Capping

Is only offered on usage charges for mobile services. Caps do not apply to recurring charges or to charges that are not related to the use of a mobile service.

4.3.4 Capping Service

Is only available on working days only. For the avoidance of doubt this does not include weekends or UK Bank Holidays.

4.3.5 The mobile bill capping service

Is based on queries against our billing database, which receives call data information from the suppliers daily in arrears. Whilst practical efforts will be made to ensure the information is up to date there will be delays in enforcing caps according to delays in receiving data from the suppliers.

4.3.6 Roaming usage

Charges from SCC's suppliers will be subject to further delay owing to international carriers delivering usage charges later than 24 hours' in arrears.

4.3.7 Mobile Bill Capping Service

Customers opting into SCC's service must agree that they will be liable for charges where SCC's supply of usage data is delayed either through late supply from carriers or if the additional usage occurs on a non-working day.

4.3.8 Alert threshold

Will be set at 75% of the total bill cap and the cap will be enforced at 95% along with an additional notification at the point of barring. SCC will alert the main contact on the account of any potential bar.

4.3.9 The process of barring

If an invoice account has reached the cap SCC will implement a bar immediately to all mobile services on that account and require written confirmation from the Customer's authorised contact to remove the bar from the services.

5.0 Activating the Service

The SIM will be activated on an agreed date. Porting of numbers from one SIM to another might not happen on the same date. If this is the case the Customer will be provided with a temporary CTN.

6.0 Provision of the Service

These Services are remotely activated meaning a customer engineer is not required at site.

6.1 How SCC will communicate to you

SCC or our Agent will notify once the Order is placed and once SCC has the Activation or installation date. SCC or our Agent will again contact you the day prior to the installation, to remind you of the installation and to ensure everything is in Order. Finally, SCC or our Agent will notify you once the service is active, typically the day after the installation date.

6.2 Service Technology

SCC may at any time vary or alter the equipment or other technology used in the delivery of the Services provided that such variations or alterations shall not be materially detrimental or disruptive to the performance capability of the Services.

6.3 Installation of Service

Unless an engineer installation is selected as part of the order, all installations are remote and any SIMs or hardware required for the service to operate will be shipped to site ready to use ahead of the Activation date

6.4 Customer obligations

The Customer shall directly or indirectly ensure the following terms are adhered to by the End User

- not use the Mobile Services, the SIM or any CTN supplied by SCC in connection with the Mobile Services for any illegal, immoral or improper uses or in a way that contravenes any law, licence, code of practice, regulations, instructions or guidelines issued by a relevant regulatory or other competent authority;
- not use the Mobile Services to make nuisance calls or to send, knowingly receive, store or communicate any material which is unlawful, offensive, abusive, indecent, defamatory, obscene, menacing or a nuisance;
- not use the Mobile Services to spam or to send unsolicited advertising, marketing or promotional material;
- not use the Mobile Services in any way which causes annoyance, inconvenience or needless anxiety as set out in the Communications Act 2003;
- not use the Mobile Services in a manner which may damage the reputation of SCC, SCC's Agent or the Network Operator;
- not use the Mobile Services in a manner which, in SCC's opinion, will (or is likely) to adversely affect the provision of the Services to customers and users of SCC and/or the Network;
- not to use the Mobile Services in a manner which is inconsistent with a reasonable customer's good faith use of the Mobile Services and/or the Network;
- not to use the Mobile Services in a way that is in contravention of SCC's or SCC Agent's, Network Operator's or any other third party's rights (including but not limited to rights in Intellectual Property);
- not to establish, operate install or use (whether directly or through a third party) any device to route or re-route voice, data or other Services on or from the Network including without limitation:
 - a GSM Gateway; or
 - any device used to forward or divert calls with the intention of reducing the charges for that call except where that device is provided by SCC and used in accordance with any applicable service terms; or
 - participate in any activities or conduct which may result in Artificially Inflated Traffic;
- not to knowingly distribute malicious software or permit the hacking or unauthorised modification of any Hardware or the Network;
- keep confidential and not disclose to any third party any account password, personal identification code, number or name issued by SCC, SCC's Agent or Network Operator permitting access to the Mobile Services;
- provide in a timely manner any information and/or assistance SCC or Network Operator requires in Order to supply the Mobile Services ensuring the continuing accuracy and completeness of such information;
- comply with any applicable manuals, guidance and any instructions, codes of practice or procedures issued by SCC or the Network Operator relating to or concerning the use of the Mobile Services and the use of the Network and co-operate with SCC's reasonable security and other checks (which may include the Network Operator making calls or sending communications to the Customer);
- notify SCC of any circumstances which may affect the Customer's ability to comply with the terms of this Agreement and/or on becoming aware of or suspect any improper or illegal use of the Mobile Services;

- comply with any applicable acceptable and/or fair use policy that SCC or Network Operator may issue from time to time, any such policy will be made available on SCC's or Network Operator's Website;
- hold and continue to hold any licences, consents and/or notifications required under any applicable legislation, regulation and/or administrative Order to receive and use the Mobile Services and/or to connect to the Network;
- only use the Mobile Services for its own use and shall not resell, resupply, distribute or otherwise commercially exploit any of the Mobile Services
- only use the SIMs provided to the Customer by SCC pursuant to this Agreement to access the Mobile Services and not for any other purposes;
- only use the SIMs provided to the Customer by SCC pursuant to this Agreement in Hardware which is enabled for Mobile Services, compatible with the Network and authorised by SCC (not unreasonably to be withheld);
- ensure that any Users comply with the terms of this Agreement; and
- not permit Supplied Hardware to be unlocked via any unauthorised manner (i.e. by anyone other than SCC or the manufacturer of the Supplied Hardware); the Customer must contact SCC if the Customer wants a Supplied Hardware item to be unlocked from the Network.

The Mobile Services may be used by the Customer or End User to view websites worldwide and SCC accepts no liability for the content, Services or otherwise in respect of any website and the Customer agrees to confirm to the acceptable use policies of such websites.

The Mobile Services may enable access to the internet, use of which is solely at the Customer's or End Users risk and subject to all applicable laws. SCC has no control over and is not responsible or liable in any way for any content offered by third parties on or through the Mobile Services. The Customer agrees that it retains responsibility for, and control of content which it sends or passes over the Network.

The Customer agrees that SCC and/or the Network Operator (and/or a supplier of the Network Operator may monitor and record calls to "999" and "112" Services and calls or other communications relating to SCC (or the Network Operator's) customer Services and telemarketing.

The Customer agrees that in respect of Messaging Services, neither SCC nor the Network Operator have any knowledge of, involvement with, or liability for the specific content of any text messages sent to the SIM which do not originate from either SCC or the Network Operator.

The Customer shall not be permitted to transfer the SIM or the CTN from the tariff which that SIM or CTN was originally connected to under this Agreement to another tariff except where SCC at its absolute discretion agrees to do so and SCC confirms such a change in writing to the Customer.

The SIMs and/or Supplier Software may be subject to export control laws and regulations. The Customer agrees to comply with any applicable export laws, regulations, prohibitions or embargoes of any country and agrees to obtain written authority from the relevant licensing authority where necessary.

SCC does not represent that any necessary export approvals and/or licences have been obtained or will be granted in respect of the SIMs or Software.

6.6 Security

The Customer shall take all reasonable steps (including testing with the latest commercially available virus detection software) to ensure that any software used with or in connection with the Mobile Services under this Agreement is not infected by viruses and/or logic bombs, worms, trojan horses and any other types of disruptive, destructive or nuisance programmes.

The Customer must inform SCC as soon as practical after it becomes aware of the loss, theft, damage of any SIM/CTN and shall remain liable for all charges incurred by the use or any lost or stolen equipment until reported to the Network Operator by SCC. Data on any lost or stolen SIM is at the Customer's risk and the sending of any command for remote wiping of data is the responsibility of the Customer. The Customer must send any remote wipe command prior to reporting the device stolen and SCC will use reasonable endeavours to instruct the Network Operator to carry out such a command across the Network. The Customer acknowledges that once the loss or theft of the SIM is notified to SCC, SCC will instruct the Network Operator to terminate the ability of the SIM to communicate with the Network.

SCC may recall, update or have access to the SIMs as reasonably required to enhance or maintain the quality of the Mobile Services, but will endeavour to minimise any disruption caused to the Customer or End User.

The Customer shall notify SCC as soon as practical after becoming aware that any person is making unauthorised, improper or illegal use of a SIM and/or CTN and shall take all such steps necessary (including such steps requested by SCC) to prevent such use.

6.7 Numbers

SCC may allocate to the Customer telephone numbers in connection with the Mobile Services and ownership of any such telephone numbers shall remain with SCC (or the Network Operator).

Nothing in this Product Annex shall be construed so as to transfer ownership of any telephone numbers to the Customer nor to grant the customer the right to sell or dispose of a telephone number. All of the Customer's rights to use telephone numbers supplied by SCC in connection with the Mobile Services will cease upon termination of this Agreement or the relevant Mobile Service.

The Customer shall comply with any and all instructions for the use of any telephone number issued by SCC from time to time.

6.8 Customer Responsibilities and Service Limitations (IOT only)

The Customer will:

- i. use commercially reasonable efforts to prevent unauthorized access to, or use of, the IOT SIM Cards and IOT Services, and will notify SCC promptly of any such unauthorized use of which the Customer becomes aware;
- ii. comply with the standard documentation and user guides published and made available on the IOT Platform by Cisco Jasper (as amended and updated from time to time); and
- iii. comply with all Laws in using the IOT SIM Cards and IOT Services, including securing regulatory approval of the Devices/application for use in its intended geography of operation and being compliant with all relevant standards.

SCC shall have no liability for the Customer's inability to make use of the IOT SIM Cards or the IOT Services caused by the Customer's failure to comply with Clause 6.8.

The Customer acknowledges and agrees that provision of the IOT Services may be suspended or disrupted:

- i. where there is a general Network failure;
- ii. to allow Cisco Jasper to carry out routine or emergency maintenance or repair works or upgrade work on the IOT Platform;
- iii. to allow SCC or the network carrier to carry out routine or emergency maintenance or repair works or upgrade work on the network;
- iv. for other operational reasons or emergencies or for reasons of security;
- v. where devices are outside network coverage or have been damaged or tampered with;
- vi. where SCC or the network carrier are asked to do so by a government or regulatory body; or
- vii. where SCC or the network carrier are entitled to suspend the IOT Services in the ways allowed by this Agreement.

The Customer acknowledges and agrees that SCC may modify or release (or may permit Cisco Jasper modify or release) a new version of elements of the IOT Services at any time and for any reason including, but not limited to, to address general customer needs or otherwise address competitive demands, to respond to a government regulation, order or Law or to advance innovation in the performance of the IOT Services.

Where an IOT SIM Card is deactivated from the IOT Services for any reason, the mobile phone number which SCC provided in connection with the IOT SIM Card which is the subject of any deactivation will only be available for a further period of 13 months from the date of deactivation. Following the end of this 13 month period the mobile phone number will no longer be available and will be recycled by SCC.

The Customer will be responsible for the acts and omissions of Customer Users in their use of the IOT Services and IOT SIM Card as if they were the acts and omissions of the Customer itself.

7.0 Service Equipment and Remote Management

The Customer shall ensure that all Service Equipment is connected to the Network and used in accordance with any relevant standards and, in addition, the following standards in the Order of precedence below:

- any legal requirements imposed on the parties including those arising from General Condition 2 set out under section 45 of the Communications Act 2003;
- any relevant specification notified by Ofcom in implementation of the recommendations of the Network Interoperability Consultative Committee;
- any relevant recommendations by the European Telecommunications Standards Institute; and
- any relevant recommendations by the Telecommunications Standards Bureau of the International Telecommunications Union.

Where remote management of the CPE (Client Premise Equipment) transfers to Customer on cessation of the Service, SCC will, at Customer's request (sent to GlobalAccounts.IncidentManagement@scc.com prior to the termination date), reset the CPE to factory default settings so as to provide Customer with management access to the device. A request to reset the CPE after this date will require the return of the CPE to SCC and collection, each at Customer's expense.

Remote Management (where specified in the Order Form) is provided as standard with Cisco, Juniper and Meraki hardware, to support configuration changes. SCC will endeavour to make changes within 4 Working Hours of notice.

These include, but are not limited to the following change requests:

- Basic Configuration requests;
- Change requests for access lists and NAT rules;
- Requests for setting up 1st dial-in VPN;
- Requests to add or remove VPN users or changing security settings.

Basic Configuration requests are requests that can be completed within 1 hour. For the avoidance of doubt, change requests and SCC's obligations in relation to such change requests are subject to and conditional on Customer's compliance with the Acceptable Usage Policy.

Advance Configuration (which shall mean more than 1-hour configuration), advance routing and additional site-to-site VPNs will be subject to consultation with an engineer and checked by a supervisor. SCC will aim to complete this within 10 Working Hours. Out of hour Configuration can be arranged at an additional cost.

All Customer requests for changes to hardware configuration must be made via email even if a support ticket is also raised by the phone system. Should the Customer not provide all the necessary information required to carry out a change then a request for further details will be provided within the stated 10 Working Hour time period. The clock will restart when all required information has been provided. SCC may refuse such request in the event that

it reasonably believes that such request may result in loss of or disruption to the Service or Network.

4 Hour Hardware Replacement warranty is available as an option for Mobile Connect Service Equipment. This warranty provides onsite replacement of the hardware with a like for like replacement within 4 hours (the 4-hour period being the period up to delivery of the hardware at Customer's premises) of it being diagnosed as faulty. The Customer acknowledges that this time period does not take into account or include the diagnostic period necessary to determine whether the hardware is faulty following the raising of a support ticket and excludes any time taken to install and commission the hardware. Where this option has been taken by the Customer, SCC shall use its reasonable endeavours to meet the 4-hour response target and the service credits specified in Schedule 3 shall apply in the event of SCC's failure to meet this response target. Where this option has not been taken by the Customer, SCC shall use reasonable endeavours to repair or replace with a like for like replacement within the next Working Day of it being diagnosed.

SCC will have no liability to the Customer relating to the provision or performance of any Services affected by the any failure by Customer to comply with any obligations outlined in this Product Annex.

8.0 Termination or Migration

Where the Agreement or the provision of a particular CTN is terminated by SCC within the Initial Term or any Renewal Term at the Customer's request and with the written consent of SCC, a fee will be payable by the Customer to SCC as follows ("Termination Fee"):

- a sum equivalent to the RRP Cost monthly line rental payable as set out in the Order Form, inclusive usage charges and minimum spend for each CTN for the remainder of the Initial Term or Renewal Term; and
- where the Agreement has a Minimum Contract Spend and the Minimum Contract Spend has not been achieved, an additional sum equivalent to the difference between the Minimum Contract Spend and the amount actually paid to SCC by the Customer pursuant to the Agreement at the date of termination of the Agreement.

For the purpose of calculating the amounts payable only whole months will be included and if part way through a month, that month will be deemed to be remaining. By way of illustration, a Customer who is in half way through the sixth month of a 24-month Initial Term would be deemed to have 19 months remaining on their Initial Term.

In the event of termination of this Agreement or a CTN for any reason, SCC shall have a right of set off against the Hardware Fund (if any) in respect of all sums owing by the Customer to SCC pursuant to this Agreement (or the case of the termination of a particular CTN, in respect of all sums owing by the Customer to SCC pursuant to this Agreement in respect of that particular CTN).

Following the expiry of the Initial Term of any Contract, either SCC or Customer may terminate that Contract by not less than one (1) months' written notice, such notice to take effect at the end of the Initial Term or on the month anniversary of the notice being received by SCC. A cancellation request must be effected by the Customer in writing by

emailing telecoms.cease@scc.com. Such email must contain the contracted company name and details of the Service being cancelled, the site address and service description and SCC contract number. No other method of notice of termination will be accepted or effective.

9.0 Support and Fault Finding

Customer's shall report all faults to either their dedicated SCC service desk or to SCC's front line service desk. No other method of reporting faults will be accepted. SCC will respond and resolve each fault in accordance with the Service Level Agreement.

SCC's front line service desk contact details:

GlobalAccounts.IncidentManagement@scc.com
0845 351 0688

SCC or our Agents support engineers will diagnose the fault remotely. Customer shall carry out all checks requested by SCC or our Agents to help diagnose and resolve a fault, including but not limited to first line checks, such as checking hardware or software status - power, carrier, testing with new cabling and filters as necessary and rebooting site equipment. Additional checks, such as plugging a PC or laptop directly into the NTE may be necessary.

Customer shall provide all assistance and information and carry out all checks requested by SCC or our Agents promptly and in accordance with SCC's or our Agent's reasonable instructions.

As part of the diagnosis, SCC may require Customer to replace the CPE and NTE. In such case, the following shall apply:

- If SCC originally provided this equipment and it is still within Warranty, SCC or our Agent will ship out replacement parts to test with by Next Working Day courier, providing the fault is identified by 3 pm. Replacement hardware for faults identified after 3 pm may not arrive until the subsequent Working Day;
- When hardware provided by SCC is outside the manufacturer's warranty SCC or our Agent will still offer to ship replacement parts, provided that Customer pays the cost of replacement;
- When hardware is loaned to Customer by SCC for the purposes of diagnostics SCC shall immediately invoice Customer for the hardware, shipping and configuration. Customer agrees and undertakes to make the loaned hardware, or the original faulty hardware, available to SCC for collection (in a resalable 'as new' condition) at a time agreed with SCC or our Agent within ten (10) calendar days. Upon receipt by SCC of the returned hardware as described, SCC will issue a credit note for the invoice. If SCC does not receive the hardware back within this time period, the invoice shall become immediately payable; and

- Customer shall ensure that hardware made available for collection at Customer's offices in its original packaging (or packaging provided by SCC or our Agent for the purposes of collection). If not made available, SCC may charge Customer the full cost of replacement at list price at that time.

In the event that no clear path to resolution of a fault has been identified using the above fault reporting and resolution procedures, the Customer may escalate the fault in accordance with the matrix set out below in which event both parties will follow the escalation matrix procedure. However, if the fault is escalated in accordance with this matrix, this shall not for the avoidance of doubt prevent SCC or our Agent from carrying out its own internal diagnostic and escalation procedures. The escalation to the next step will only occur when the response time to each escalation level has not been met. This time is inclusive from first contact.

Technical Support Escalation Matrix		
Level	Contact	
1	Frontline Service Desk	GlobalAccounts.IncidentManagement@scc.com 0845 351 0688
2	Frontline Team Leader	George.Condurat@scc.com 0845 351 0688
3	Service Desk Operations Support Manager	Stefan.Popovici@scc.com
4	Head of UK Service Operations	George.Cernatescu@scc.com
<ul style="list-style-type: none"> Applicable when no CPTR (Clear Path To Resolution) has been identified. Supplier escalation operates independent from the above which is managed by SCC. Progress through each level is dependent on the Service Level. 		

10.0 Service Level Agreement and Service Credits

SCC warrants that the Mobile Service as described in the Order shall be provided using reasonable skill and care.

In case of the Mobile Service not fulfilling the contractually agreed requirements: (a) SCC shall remedy the service in accordance with the SLA.

Where equipment is sold in order to provide the Mobile Services, SCC will endeavour to pass onto Customer the benefit of any warranty (if any) SCC receives from its supplier of the equipment.

10.1 Service Credit Calculation

There is no Service Credit Calculation for Mobile Services.
