

SAMSUNG

Galaxy A57 5G Enterprise Edition

The reliably intelligent smartphone for everyone

The Samsung Galaxy A57 5G Enterprise Edition is the slimmest A Series phone yet. But don't let its sleek frame fool you, it's a powerful performer that comes packed with smart tools, advanced capabilities and unparalleled security—all while still delivering exceptional value.

Give your teams the power to succeed with a mighty new processor and the new, super smooth and intuitive One UI 8.5 making it easy to access the apps and tools you need. But where this intelligent phone really shines is with its array of essential AI tools—from Google Gemini¹ to the latest Circle to Search with Google,² plus with Voice Transcription³ you can access AI call captions, transcripts and real-time translations.

With its 5,000 mAh battery,⁴ the Galaxy A57 5G Enterprise Edition packs enough charge to get users through even the busiest of days, with 45W Super Fast Charging 2.0⁵ for a quick power-up should things run low.

Powered up for success

Work productively on the most powerful A Series device, with 15% more speed and power.⁶

The Galaxy A57 5G Enterprise Edition's Exynos 1680 processor and 8 GB of RAM give you plenty of power to keep on top of projects, run heavy applications and view large files on the move. Performance won't dip when the action heats up either, thanks to the larger, advanced cooling chamber.⁷

1. Compatible with select languages only. Google account login and network connection required. Google and Gemini are trademarks of Google LLC. Results may vary depending on visual matches. 2. Requires network connection. Compatible with select languages only. Google Account login and network connection required. If Gemini UI or Google apps are in view: Google [and Gemini / YouTube / Maps etc] are trademarks of Google LLC. Results may vary depending on visual matches. 3. Future releases may include additional advanced features that are offered as part of a paid subscription plan. Different terms may apply for AI features provided by third parties. 4. Typical value tested under third party lab conditions. Rated minimum capacity is 4,905mAh. Compared to the Samsung Galaxy A56 5G. 5. Super Fast Charging 2.0 requires 45W power adapter. Sold separately. 6. Compared to the Samsung Galaxy A56 5G. 7. When compared to Samsung Galaxy A56 model.

Business insights at your fingertips

Find the answers you need, when you need them, with Google Gemini.¹

Just chat using natural, conversational language to get help with anything from brainstorming ideas to planning your day. Plus, discover more about anything on your phone with the latest Circle to Search with Google,² which can help you track down multiple products at once. You can even share your camera or screen in Gemini Live¹ for quick, contextual answers.

Focus on every little thing

Keep your focus during every conversation.

With Voice Transcription³, which works in calls or the Voice Recorder app, you can access AI call captions, automatic transcripts and real-time translations to record and organise every detail the background—leaving you free to concentrate. It also lets you instantly revisit key points, share summaries with colleagues and collaborate seamlessly with teams around the world. So, you can reduce the need for follow-ups, avoid misunderstandings, and keep projects moving.

Keep up the great work for longer

Stay productive throughout even the longest day with a battery that can keep up with your work.

Here's a device that keeps up with you. The long-lasting 5,000 mAh⁴ battery means you can easily get through the busiest day. And, when you do run a little low, 45W Super Fast Charging 2.0 can give you up to 60% charge in just 30 minutes.⁵

Reliability for your business future

Secure your device with enhanced service and keep it performing like new for longer.

You have the option to upgrade to 4 or 5 year Enhance Service Packs⁶—available exclusively with Enterprise Edition devices. A 2-year lifecycle ensures greater fleet consistency. The Galaxy A57 5G Enterprise Edition also receives regular security and software updates. Stay protected from mobile threats with up to 7 years security and maintenance releases, plus 7 generational OS updates.⁷
