Carbon Reduction Plan

Supplier name: Specialist Computer Centres PLC
Publication date: 5/11/26

Commitment to achieving Net Zero

Sustainability Report 2025

Specialist Computer Centres PLC is committed to achieving Net Zero emissions by 2040.
SCC PLC is a subsidiary of SCC EMEA, which has Net Zero targets validated by SBTi.

Emissions Reporting

Baseline Emissions Footprint

Baseline Year: 2019 (1/4/19-31/3/20)			
Emissions	Total (TCO2e)		
Scope 1	2541		
Scope 2	1671 (location-based)		
Scope 3 (included sources)	3-3	Upstream Fuel & Energy	842
	3-4	Upstream Transport	3393
	3-5	Waste	34
	3-6	Business Travel	2149
	3-7	Staff Commuting	3719
	3-9	Downstream Transport	N/A
		Total	10137
Total Emissions	14,350		

Current Emissions Footprint

Reporting Year: 2025 (1/4/25-31/3/26)			
Emissions	Total (TCO2e)		
Scope 1	1358		
Scope 2	832 (location-based)		
Scope 3 (included sources)	3-3	Upstream Fuel & Energy	608
	3-4	Upstream Transport	2631
	3-5	Waste	6
	3-6	Business Travel	1003
	3-7	Staff Commuting	2099
	3-9	Downstream Transport	N/A
		Total	6346
Total Emissions	8,537		

Base year figures have been recalculated to reflect acquisitions and disposals completed up until 2026 and improved methodology applied in accordance with SBTi and GHG Protocol Guidance.
SCC does not report under category 3-9 Downstream Transport and Distribution as we supply products and services to end customers, with any transport from us to them being by or instructed by ourselves and therefore accounted with Scope 1, 2 or 3-4, per GHG Protocol.

Simplify the complex

Emissions Reduction Targets

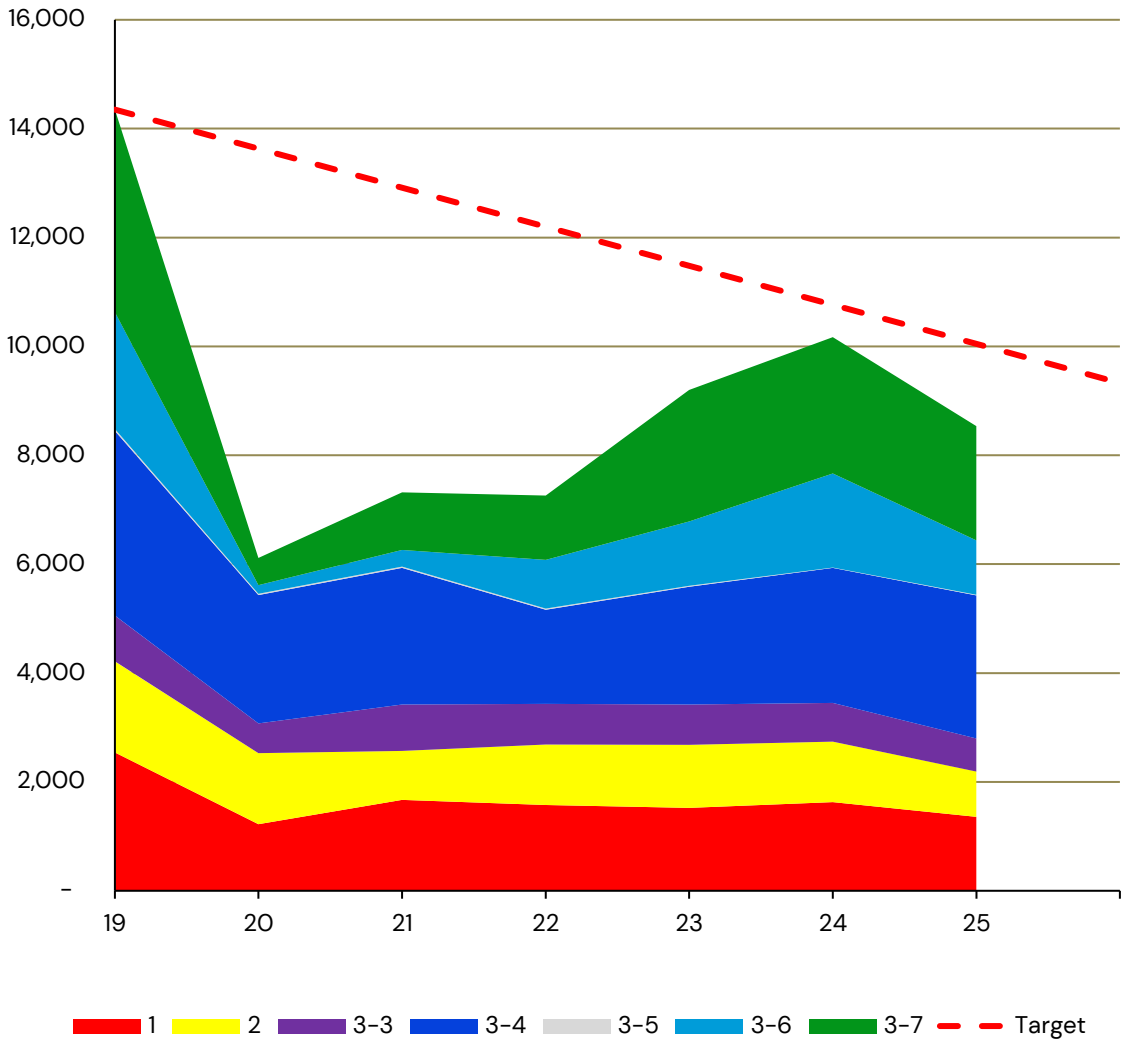

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction target:

To halve reported emissions by 2030, equivalent to a linear annual reduction of 5%

We have reduced emissions by 34% to date

Progress against these targets can be seen in this graph:

SCC Carbon Emissions by Scope

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2019 baseline. The carbon emission reduction achieved by these schemes equate to 500 tCO2e, a 5% reduction against the 2019 baseline and the measures will be in effect when performing the contract
Refurbishment of headquarter offices including heat pumps, heat recovery ventilation, LED lighting and controls, improved insulation & removal of all gas fired boilers.

Refurbishment of our Recyclea facility to increase our capacity to refurbish and extend the useful working life of IT equipment. This included fabric improvements to reduce heat loss and fully electrified heating systems with zero burning of fossil fuels in the building.
Electrification of our road vehicle fleet, which is now 48% BEV with a further 8% PHEV. We also provide EV and cycle to work schemes to help employees access low and no emission modes of transport.

In the future we hope to implement further measures, such as:

- Solar PV installations on owned and long leasehold buildings.
- Replacing gas fired heating systems with heat pumps
- Reduction of fleet emissions through roll out of full and hybrid electric vehicles.
- Engagement with our value chain, requesting that they commit to having SBTi approved net zero targets, especially logistics partners
- Further energy efficiency projects

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.
Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard .
This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Russell Brown
